24 Hours Advance Notice requested*

SUP Yoga (stand-up paddle board yoga)

Take your yoga practice onto the calm waters of the Florida Bay on a wide and easily balanced paddle board. Our trained SUP yoga instructors will offer a quick course in paddle board technique so you feel safe and comfortable, and together we will paddle out to the perfect spot to anchor and flow through a fun and tranquil practice tailored just for you. You will end in relaxing savasana as you float gently in tranquil water. No experience is necessary. This can be fun and light-hearted for beginners, or will test balance and core for more experience yogis. 75 Minutes | \$250

Yin Yoga

A slow-paced style of yoga with postures that primarily concentrate on the connective tissue of the body (fascia, tendons and ligaments). Most positions are performed seated or in reclined positions and allow for deep stretching to open the hips, spine and shoulders. Although this yoga appears passive, Yin Yoga can be quite challenging as you sit with the stillness and depth of each pose. Balance this yoga with a follow up day 2 "yang" yoga such as vinyasa or ashtanga. | \$200

Restorative Yoga

No experience necessary in this gentle yoga practice designed to simulate the "rest and digest" mechanisms of the body. Blocks, straps and bolsters are all used and provided. | \$200

Power Vinyasa Flow Yoga

Power Vinyasa Flow Yoga, a powerful one-hour yoga class for practitioners who prefer a challenging, heat-building practice. Recommended for those with some vinyasa experience. This practice will cleanse body and mind, setting the mood for the rest of the day. | \$200

Aqua Yoga

Takes your practice poolside for a focus on balance and basics. Start at the edge of the Zen Pool for a light stretch, then move into the water for a series of effortless postures provided by the buoyancy of the water. Water encourages the body to relax and flow, lubricating the joints and stimulating the lymph system. | \$200

Reiki

A Japanese technique for stress reduction and relaxation which focuses on the healing of one's "life force energy". Experience deep relaxation and a true sense of well-being. | \$200

Guided Meditation

Bring your focus inward, calming the mind and body. Choose to lie flat or sit as we guide you into a quiet space allowing reflection, awareness, and openness. No experience required. | \$200
